REPORT OF COMMITTEE TO VISIT STATE ASYLUM

AWFUL CONDITIONS THAT EXIST SHOWN UP IN DOCUMENT SUBMITTED TO LEGISLATURE—THE PRESENT SUPERINTENDENT IS MAKING IMPROVEMENTS.

Following is the full text of the report of the legislative committee appointed to visit the state hospital at Chattahoochee:

The joint committee appointed under house concurrent resolution No. 5 to visit, inspect, investigate and report the findings of the condition, needs and affairs of the hospital for the insane of the state, herewith submit its report:

On account of not being furnished with records and detailed itemized accounts and other data asked for, the investigation and report is not as thorough and complete as the committee desired to make.

Evidence is before the committee, observation of the committee and other information, authorizes the committee in saying that the institution is not a hospital for the insane, but is more of a dumping place for all sorts of people, where they are maintained after a fashion at an enormous expense to the state. Little children, young men and young women, middle-aged men and women, old, feeble and decrepit men and women afflicted with all sorts of mental and physical ailments are dumped into the institution as "indigent insane." Many of them are not indigent or insane, and should be at home, with parents or relatives, or in the county poor houses or infirmaries, free to earn their own living.

No systematic or scientific effort whatever has been made, or treatment given, for the restoration of the mind. The sick and afflicted have not been given the necessary medical or other attention due or needful for their cure or restoration.

Cruel Management.

Evidence is before the committee that the management has been criminally cruel, negligent and heartless in some instances.

Evidence before the committee is to the effect that attendants and nurses have been drunk while on duty, have been brutally and inhumanly cruel to helpless inmates in some instances.

The very atmosphere of the institution has been scented with vice and immorality to the extent that even inmates have begged and pleaded for release on account of it, and citizens living nearby have felt outraged by it. Reports of misappropriation of the state's money and effects have come to the committee. Observation of the committee and method of purchase and disbursement; no check against collusion whatever, in any way; the fact that itemized account of expenditure was not furnished the committee as asked for, and to the mind of the committee now, could not be furnished for the reason that no complete or accurate system of accounts has been maintained. The committee is forced to the belief that there is ground for such reports. That at least some money and effects used did not go to the use and benefit of the institution, but into the pockets and for the use and benefit of others—take off and less a severe shock to her relatives and friends.

Edward Otis, who died in Milton yesterday, will be buried in Milton cemetery to-day at 10 o'clock.

graft is in the air—common talk.

Who is Responsible?

It is with serious regret that duty compels the committee to maintain and so present, that the Board of State Institutions is very largely responsible, and should be so held, for the deplorable conditions, the inexcusable and unpardonable evils that have existed in and about the institution. Responsible to those poor, helpless, unfortunate inmates, who have been caused to suffer the pangs of hunger, the humiliation and pain of the keen cuts of the lash, the thud of the fist, the stamp of the foot, the unknown and untold physical suffering and mental anguish caused by wilful, wanton neglect of management and attendants. While the evidence is not absolutely clear that such cruelty and failure of duty caused death, it is sufficiently clear to create suspicion of such being true.

Shameful Neglect.

The committee feels justified in saying that many evils and irregularities that have existed in and about the institution, its management and influence, could have been corrected if the necessary watchful supervision had been exercised. The committee further maintains that there is too much at stake that is of such vital importance to those helpless inmates and to the people of the state for it to be entrusted to uncertain or irresponsible hands. The board should give more direct and special attention and supervision to the detailed affairs of the institution than has been done. To the mind of the committee the institution is more of a prison than an asylum. If the other duties and requirements and the time of the board are such that it cannot give the institution and its affairs that watchful supervision so eminently necessary, such fact should be reported to the legislature to the end that the needed action may be taken.

Awful Conditions Exist.

Your committee represents to you that Ward No. 1 is in an extremely unsanitary condition; that it is cruel and inhuman to compel even human beings oblivious to their surroundings to live and stay in it. The floor is worn, decayed, rotting, the seams filled with vile filth of the most poisonous character.

The committee finds that there is no provision made for the separation of the criminal insane from other and harmless patients in recreation rooms or grounds.

The committee recommends the separation of the violently insane from those of peaceful and harmless tendencies.

Present Conditions Improved.

It is but just and proper that the committee should impress the fact that the present superintendent and staff have been in charge only a very short time, but it is evident to the committee that even in so short a time material improvements have been made, and the committee is much pleased with the expressed purpose of their correcting every evil and irregularity possible at the earliest possible date. The committee has confidence in such intention and ability.

Much evidence and information is before the committee that is not submitted, for the reason that it would make the report too voluminous, and further, some of the evidence is of such a character that it would not do to be put in public print.

The committee believes that it does submit sufficient evidence to show you that we have tried to discharge the duties imposed without fear or favor, free of whitewash or prejudice, believing that we are fully sustained in every utterance, however strong or reflective such may be, and believing that a discharge of duty requires nothing less. All of which is respectfully submitted for your consideration.

Chairman.

MICHIGAN TAX LAW SUSTAINED

UNITED STATES COURT HANDS DOWN DECISION ADVERSE TO TWENTY-EIGHT RAILROADS.

By Associated Press.
Grand Rapids, Mich., May 19.—Judge Wandy, of the United States circuit court, this afternoon handed down a decision in a case brought jointly by 28 railroads against the state of Michigan, sustaining the constitutionality of the state ad valorem tax law. Judge Wandy, however, excepted the Grand Trunk Railway from the decision because that road was organized under the territorial law in 1855.

Don't Coddle Rubber Plants.
Of all the freak remedies that are sometimes proposed for sick house plants those which are recommended for rubber plants are the worst. They run all the way from applying beef-steak and castor oil to the roots to coating the leaves with milk. Give your plants a properly prepared soil and sufficient light and keep the leaves free from dust and scale, and you will find no necessity for such nostrums as these. Make it a practice to go over the plants daily with a soft cloth and remove any indication of dust, scale or insects.—Country Life in America.

Venus.

Venus is both a morning and evening star because she always accompanies the sun, never receding from him beyond certain limits, while the rest of the planets, with the exception of Mercury, are seen at all possible angular distances from the sun. When Venus is to the west of the sun she rises before him and is a morning star, but when she is to the east of the sun she rises after him and is an evening star.

Logical Reasoning.

"Ma," said Mrs. Malaprop's little boy, "what is 'antimony'?"
"Sh, that's not nice to talk about!" replied Mrs. Malaprop. "It's what a lady gets when she's divorced from her husband."—Exchange.

A Long Distance Train.

A railroad employee in Dublin was strutting consequentially before a train that was to run direct to Cork, while he repeatedly shouted, "This train doesn't stop anywhere!"

SANTA FE WANTS PAUL MORTON

SOMETHING MAY BE DONE TO SECURE HIS SERVICES DURING COMING VISIT TO CHICAGO.

By Associated Press.
Chicago, May 19.—The Tribune today says:
E. P. Ripley, president of the Santa Fe railway, when asked last night regarding the report that Paul Morton, secretary of the navy, and former second vice-president of the Santa Fe, would renew his relations with the road upon leaving the cabinet, said:
"Nothing definite is yet known. I have been in California lately, and have not seen Mr. Morton for three months and do not know his plans."
"The Santa Fe would be glad to have him back, and something may be done during his visit to Chicago next week."

Will Leave July 1.
Washington, May 19.—Secretary Morton will leave the cabinet July 1 if the president will accept his resignation on that date. The secretary has not completed plans for the future, but has a number of offers under consideration.

DAYS OF DIZZINESS

Come to Hundreds of Pensacola People.

There are days of dizziness; Spells of headache, dizziness, backache; Sometimes rheumatic pains; Often urinary disorders. All tell you plainly the kidneys are sick. Doan's Kidney Pills cure all kidney ills.

Here is proof in Pensacola: Mrs. M. White, of West Zarragossa street, says: "Any remedy that will make a cure as promptly and thoroughly as Doan's Kidney Pills did in my case is well worthy of the highest recommendation. I was troubled with my kidneys for some time, indicated by severe pains in my back and sides. Sometimes it was a dull aching and at other times sharp twinges. I also had dizziness and severe headaches and an annoying difficulty with the kidneys. I happened to read an advertisement in the papers about Doan's Kidney Pills and procured a box at Sidney Kahn's drug store, No. 9 South Palafox Street. I felt relieved after taking a few doses and before I finished the third box I was completely cured. I am now perfectly well and healthy as far as my kidneys are concerned."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Deceased.

Deodand (Latin, Deo dandus, to be given to God) was formerly in English law any agent or instrument by which a person was accidentally killed and which for that reason was to be given to God—that is, forfeited to the king to be applied to pious uses and its value distributed in alms by his high almoner.

Thus a kind of expiation was arranged for such fatal accidents as might be due to the fall of a ladder, the toss of a bull or the heavy wheel of a cart, when the victim was, without any fault of his own, deprived of the last sacraments of the church. The right to these deodands, which were abolished in 1846, was frequently granted to individuals or annexed to lands.

They are mentioned in "Hudibras":
For love should, like a deodand,
Still fall to the owner of the land.
